Worldwide Presence

Since 2015, we have tripled our presence in the world

● TOTAL CLIENTS - 425 ● TOTAL COUNTRIES - 39

- USA
- India
- Belgium
- Ukraine
- Spain
- Australia

Our Mission

We strive to raise academic integrity standards worldwide and create universally integrated and cost-efficient learning solutions.

UNIVERSAL UNICHECK SOLUTIONS:

- Essential functionality free for EDU institutions
- Extra-services, support and Enterprise-grade benefits

Research & Development

Our Growth Roadmap includes these projects:

01

EMMA

Self-learning Artificial Intelligence taught to attribute authorship. It is the most accurate system in the world to date, capable of detecting and fighting contract plagiarism.

Stage — Beta

02

GRAMMAR ENGINE

World's first grammar engine that understands rules and speech patterns and learns on the go.

Stage — Alpha

03

PARAPHRASE SEARCH

Unprecedented and efficient paraphrase search algorithm that focuses on the idea and meaning instead of spotting similar word combinations.

Stage — Alpha

04

MULTILINGUAL SEARCH

Unique and extremely advanced search algorithm that can detect copied texts even if they were translated into different languages multiple times.

Stage — Early R&D
